

## DRYS WIN WHERE LIQUOR AN ISSUE

Two Chief Exponents of Prohibition—Volstead and Randall Return to Congress.

G. O. P. NET GAIN OF 33

(By DAVID M. CHURCH.)  
New York, Nov. 3.—(U. N. S.)—Riding the electoral tide wave, republicans are assured of an increased majority in the house of representatives, according to incomplete returns today.  
Latest returns indicate a net gain of thirty-three in the republican membership of the house, with a majority that will be close to 100.  
Based on returns in and the indicated trend in the states here the result is not yet final, that appears that the house of representatives in the sixty-seventh congress will be constituted approximately as follows: Republicans, 275; democrats, 159; independents, 2; prohibitionists, 1. This estimate, while not final would give the republicans a majority of 111. The present majority of the republicans is thirty-nine.  
The greatest increases in republican congressmen were noted in the eastern states particularly in New York, New Jersey and Pennsylvania. The democrats gained one member in Indiana and one in Oklahoma, early returns indicate.

## A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your finger. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain. Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuritis, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back of joints, sprains, sore muscles, bruises, chilblains, frostbite, colds on the chest. Nothing like Musterole for croupy children. It is a household necessity.

5c and 6c jars; hospital size \$3.00.

## When the Water Is Rough.

—By Ripley.

THE BACK STRANGLE AND BODY SCISSORS TOUGH ENOUGH ON LAND BUT TEN FEET UNDER WATER—WELL!

THE HAIR-HOLD AWFULLY SIMPLE—AND SIMPLY AWFUL

(By ROBERT L. RIPLEY.)  
What is the toughest game in the world?  
You are not qualified to answer unless you have witnessed a game of water polo. It is the roughest and toughest game in the world of sport, according to Joe Ruddy, the game's greatest player.

The great Canadian game of lacrosse is one of the most strenuous sports known, and American football may get a few votes, while the good old game of baseball is mighty warm at times, but there is nothing rougher than the water when they play water polo.

Joe Ruddy ought to know. He is one of the best all-around athletes in this country and has played all games for twenty-five years. He has something like 737 points and medals won in all branches of athletics to attest his ability, and today at the age of forty-one he says that he is better

than ever. Ruddy is the captain of the New York Athletic club water polo team, champions of America. As a matter of fact the N. Y. A. C. team lost a water polo game since the Chicago Athletic club beat them in 1906.

That is the only losing game that Ruddy has played in twenty years.

"Water polo requires more strength, stamina, and better physical condition than any other sport," says Ruddy. "The spectators little realize what goes on under the water. Just imagine yourself on the bottom of the tank with some husky holding you down with a back strangle and body scissors. Such holds are had enough on land, but in ten or fifteen feet of water they are terrible. There is only one escape from such a hold, and that is to outlast your opponent. The one who runs out of 'gas' first loses. If you can't stay under water at least two minutes you are lost. All sorts of wrestling holds are used, and many

ju-jitsu twists—in fact, there is no limit to the rough stuff indulged in by the players under water. It is an underwater free-for-all. Everything goes, no quarter is asked.

"I will never forget the games we played against the Chicago Athletic club. We were always about unconscious when the games ended. They had such great players as Fred McConnell and Frank Kehoe. Those men were devilish. Harry LeMoine and Walter Boyce, of Boston, were tough, too.

"One time we were playing the Boston Athletic association, and after the game we had gone to our dressing rooms when we missed one of our men. Rushing to the tank we found Harry Reeder and Tommy Baxter locked in vice-like grips—unconscious—at the bottom of the tank.

"Oh! it's a rough game—rougher than any other I ever played, and I have played them all."

Sleep and Rest.  
One of the most common causes of insomnia and restlessness is indigestion. Take one of Chamberlain's Tablets immediately after supper and see if you do not rest better and sleep better. They only cost a quarter.—Adv.

**GIVE THEM A CHANCE**  
College athletics are not run in this day and time on ten or fifteen dollars. Even Yale and Harvard with their tremendous gate receipts from football need every cent they can gather to pay their way.

Under these conditions what chance have West Point and Annapolis with gate receipts at a minimum—where admission is charged at only one game and then only a portion of the seats are sold?

They also need money to run their athletics properly, and with the proved importance of physical developments they should be given graduates to help carry the burden.

West Point now has under way the greatest athletic system in the world, but it isn't a system that can be run on a few dollars.

**ONLINE KICKS**  
"Carpenter to get \$200,000 for meeting Dempsey." No matter how rough Dempsey may be, this is a better break for the Frenchman than fighting Germans for four years at 40 cents a day.

Expert strategy is the stuff you get away with. The rest of it is placed under the general classification of bone.

You might also remember that sideline experting isn't being constantly subjected to hard and intimate contact with the ground.

Pretting and worrying over what people are saying about you is generally the main cause of proving they are right.

**EVERS AT HOME**  
The return of Johnny Evers to Chicago as Cub leader is the return of an exile to his native land.

After eight years of wandering the Trojan is back where he got his start and earned the bulk of his fame. And, win or lose, whatever he does will at least be interesting, which is no small feat in this humdrum existence.

He began his career with the Cubs nearly eighteen years ago, but the vital spark hasn't even started to fade out.

**BALL PLAYERS**  
In a technical journal there has been discussion recently as to which is the most "skilled" of the trades. Each trade has its able exponents, but no one has yet come forward to say a word for the ball players' trade.

Indeed, what other trade calls so continuously for instant decision, unerring judgment and such perfect coordination of mind and body? To the thoughtful fan a baseball game is a dare not stop to think; so he thinks and acts at the same moment. At least, there is no noticeable time-lapse between the thought and the act.

His decisions are unalterable, as are his errors. He cannot correct his mistakes as can other skilled tradesmen and his one error may cost the game away. His decisions, openly made and openly acted upon, are subject to the instant review of his boss, the general public. For him there is no covering up of mistakes in the hope that the boss will not find them out.

All of which calls for such constant mental and physical alertness as is required in no other trade, business or profession, except, perhaps, that of the doctor when he is performing an emergency operation.

A noted lawyer once said that when he had an important case to try he would work out several difficult problems in mathematics before going to court in order to limber up his brain. Several instances of snafus

## THOUSANDS SEE NEWS' RETURNS

Scores Take Advantage of Opportunity to Inspect New Building.

Thousands of people, eager to get accurate returns from the election, gathered in front of The News' new building at Tenth and Columbia streets last night to watch the flashing of election bulletins.

From dark until midnight the throng stuck to its job; at first with a democratic tinge, the rapid recurrence of disheartening democratic flashes threw a damper on the Cox partisans in the throng, while the Harding men yelled with ever-increasing vehemence.

The news of both national and state elections was flashed by The News' screen on a screen stretched from the Chattanooga Transfer company to The News building; they began to come in early, and as soon as they started the Harding drift was evident. Republican cohorts warmed up early, and cheer after cheer rent the air as reports from New York and Ohio showed tremendous Harding majorities.

Yet when a picture of the democratic roster was thrown on the screen the faithful gave a sympathetic yell; when

ju-jitsu twists—in fact, there is no limit to the rough stuff indulged in by the players under water. It is an underwater free-for-all. Everything goes, no quarter is asked.

**TWO ALABAMA COUNTIES CARRIED BY HARDING**  
Birmingham, Ala., Nov. 3.—Majorities for Harding and Coolidge in two counties in Alabama were indicated by returns today.

Both counties are in the Seventh district, where C. H. Kennamer, republican, made a vigorous campaign for the seat of Representative L. H. Rainey. The latter was apparently re-elected, however, by a majority of more than 5,000 votes.

Incomplete returns from all counties showed the democratic ticket, national and state, had won a substantial victory. An amendment to the state constitution providing for improvements to the port of Mobile was successful, but doubt existed as to the fate of two other amendments. DeKalb and St. Clair were the two counties reported republican. The vote in the Seventh district at 10 o'clock today showed: For Rainey, Mount county, 400 majority; Cherokee, 800; Cullman, 80; Etowah, 2,500; Marshall, 300; For Kennamer, DeKalb, 250 majority; St. Clair, 800.

National and county republican nominees polled the same vote as Kennamer.

**RECORD IN NEW ORLEANS**  
New Orleans, Nov. 3.—Senator Harding polled the unprecedented total of 7,000 votes in the city New Orleans with eight of the 157 precincts missing. He carried ten known country parishes, apparently was an easy victor in the Third congressional district and eight city precincts, mostly in the uptown residence section, gave the republican candidate majorities.
